

# Make Your Own Medieval Weapons

A lance? A holy-water sprinkler? A Halberd? Use the following websites to research and design your own set of Medieval Weaponry:

## Research Resources:

[Medieval Weapons and Armor](#)

[Middle Ages Weapons](#)

[Here are some cool videos about Medieval Weapons](#)

Medieval Times Eyewitness Book (on the Resources Library Cart in our classroom)

Pick **4** of the most interesting weapons from your research to recreate using tinkercad.com. Then complete the following chart:

## Documentation

Weapon Name	Your Design from Tinkercad (Use Preview to take a screenshot.)	Describe the weapon in your own words. How was the weapon used during Medieval Times? What materials were used to make it during Medieval Times? How effective do you think it was during battle?
1.		
2.		
3.		
4.		

## Reflection

Which of these weapons do you think is the most effective? Which one is the least effective?	
----------------------------------------------------------------------------------------------	--

Why are the weapons so weird looking?	
Why were there so many different kinds of weapons during the middle ages?	
How do the weapons of the middle ages compare with the weapons that are used today in modern warfare?
